

Phyoe Min Khant

0473 457 997 | phyoe_min_khant@student.unsw.edu.au | linkedin.com/in/phyoe-min-khant | Kensington NSW

CAREER SUMMARY

- Graduate civil/ structural engineer at Structability
- Performed structural calculations related to AS1170, AS1684, AS1720, AS3600, AS3700, AS4055, AS4100, AS4600
- Model and analyse structures and connections in ETABS, SAFE, microstran & limcon validating with excel calculations
- Organized community events, talent recruitment and math competitions in leadership roles

EDUCATION

Master of Engineering (Civil) Feb 2024 - expected Dec 2025
University of New South Wales

- WAM – 89.25 (HD); 97 in Concrete Structures, 95 in Steel Structures, 96 in Structural Stability, 99 in Geomechanics, 99 in Advanced Mechanics of Structures & Materials

Bachelor of Engineering (Civil) with Honours (First Class) May 2023
University of Portsmouth (Final Year) Years Attended: 2022 – 2023

Yangon Technological University (Year 1 to Year 4) Years Attended: 2015 – 2021

- Myanmar Government Scholarship, Regional Highest Mark Scorer in Myanmar Matriculation Exam
- WAM – 87 (HD)

RELEVANT EXPERIENCE

Graduate Civil/ Structural Engineer Jan 2026 – Present
Undergraduate Civil/ Structural Engineer Oct 2024 – Jan 2026
Structability Consulting Engineers, Sydney, NSW

- Design review of structural elements under live loads, wind loads, and snow loads in accordance with AS 1170.1, AS 1170.2, AS 4055, and AS 1170.3, covering structures such as floors, awnings, free roofs, hypar roofs (shade sail), building walls, and boundary-free walls, using editions applicable at the time of construction
- Structural assessment of element capacities, including masonry walls (AS 3700, AS 4773), timber and truss roof tiedowns (AS 1684, AS 1720.1), and steel connections (AS 4100, AS 4600). Includes assessments after 2025 Cyclone Alfred and the Guyra Snow Event
- Modelling and analysis of portal frames and continuous beams using MicroStran, and connection design using Limcon, with verification through independent Excel-based calculations
- Drafting of micropiles, shotcrete retaining walls, timber trusses, and preparation of floor plans, site plans, and swimming pool plans using AutoCAD

Casual Academic (Demonstrator) Jan 2025 – Dec 2025
School of Civil and Environmental Engineering, UNSW Sydney

- Demonstrated workshops for CVEN2002 (Engineering Computations), CVEN2303 (Structural Analysis & Modelling), ENGG2400 (Mechanics of Solids for Civil Engineers), and CVEN3303 (Steel Structures)

Head of Mathematical Olympiad Training Committee August 2025 – Present
Mathematical Society of Myanmar

- Organize Team Selection Tests, including problem selection and marking, write grant proposals to apply for national and international funding, coordinate training programs for Round 1, Round 2, Pre-TST, and National levels
- Serve as the local organizer of the 2025 European Mathematics Cup in Myanmar

Mathematics Instructor May 2023 – Jun 2023, May 2024 – Jun 2024, April 2025 – Present
IMO Training Camp, Mathematical Society of Myanmar

- Assessed student needs and designed tailored lesson plans for number theory addressing key areas of concern
- Increased understanding through transforming challenging concepts into simplified examples

Engineering Intern, Graduate Structural Engineer Dec 2022 – May 2023
MMHK Design, Construction & Consultant Co., Ltd., Myanmar

- Performed structural analysis and design of three-story RC residential buildings with ETABS & SAFE, verified with manual calculations in Excel, prepared 6 full structural drawing sets in AutoCAD

ADDITIONAL EXPERIENCE

Property Management Assistant and Concierge Feb 2024 – Mar 2024
Sunway Global, Sydney, NSW

- Conducted property inspections and maintained condition and maintenance records for a 28-storey residential building, while also managing front desk operations.

EXTRACURRICULAR ACTIVITIES

Professional Development Camp

Sep 2024

UNSW Civil and Environmental Engineering Society

- Engaged with industry leaders to gain insights into workplace culture and engineering practices
- Collaborated in a group of 10 on an engineering design challenge, enhancing teamwork and problem-solving skills

Professional Development Program

Sep 2024

UNSW Sydney

- Completed an intensive 3-day training course in business communication, customer service skills, networking skills and employer expectations in the Australian workplace

Leadership Foundations Program

Aug 2024

UNSW Sydney

- Undertook training in growth mindset, promotion and global-citizenship through a 4-day workshop
- Developed self-reflection, active listening, and self-management skills to enhance leadership capabilities
- Gained experience in inclusive leadership and conflict management within team environments

President

January 2020 – January 2021

YTU Civil Engineering Students' Association

- Organized and facilitated fortnightly knowledge sharing webinars for three months
- Hosted one major fresher welcome and one major paying homage ceremony, fostering a sense of community and tradition

Local Committee Vice President (Talent Management)

May 2018 – Jan 2019

AIESEC in YTU

- Organized 2 membership recruitments including interviews and assessments, ensuring selection of qualified candidates
- Trained and supervised more than 50 members to achieve goals, through regular assessments and providing constructed feedback for improvement
- Fulfilled entire organization's missions by making sure each of 5 departments meet targeted KPIs each month

RESEARCH EXPERIENCE

Effect of Creep on the Load Bearing Capacity of Reinforced Concrete Columns

Sep 2024 – Aug 2025

Master Thesis, UNSW Sydney (Supervisor: A/Prof. Ehab Hamed)

- Supervised by A/Prof. Ehab Hamed; investigates the accuracy of design standards (EC2, ACI 318, AS3600) in predicting the reduction in buckling capacity due to creep, using experimental data from literature
- Uses MATLAB to generate P-M interaction diagrams and compare short-term and long-term column capacities, incorporating nonlinear effects and sustained loading scenarios

Study on Effect of Bracing Types in Earthquake Resistant Steel Building

May 2023

Honours Thesis, University of Portsmouth

- Designed and analysed an 8-story earthquake-resistant steel building in ETABS to evaluate optimal bracing types using seismic codes including MNBC 2020, ASCE 7-05, AISC 341-16 and AISC 360-16

PROFESSIONAL MEMBERSHIPS

American Society of Civil Engineers (Student Member)

Mar 2025 – Present

Concrete Institute of Australia (Student Member)

Jan 2025 – Present

Engineers Australia (Student Member)

Feb 2024 – Present

Institution of Civil Engineers (Student Member)

Feb 2023 – Present

- Remain up-to-date with industry developments through monthly newsletters and attending professional development seminars

TECHNICAL SKILLS

- AutoCAD (2D Drafting), MicroStran, Limcon, ETABS, SAFE, SAP2000 and ANSYS (Modelling and Analysis)
- Microsoft Office Suite (Word, Excel, PowerPoint and Outlook) and MATLAB

INTERESTS

- Table Tennis: represented YTU in inter-university tournament 2018, gold medallist in YTU sport festival 2017, gold medallist in Regional Level Inter-School Table Tennis Tournament 2012
- Mathematics: Observer in 60th International Mathematics Olympiad in UK; Mathematics Perfect Scorer in Myanmar Matriculation Exam, Second Prize in Grade 5 and First Prize in Grade 9 National Level Mathematics Contests

REFEREES

- Ehab Hamed, Associate Professor
School of Civil and Environmental Engineering, UNSW Sydney
Contact details available upon request
